JOBS AT MASCO

MILLING OPERATOR

McDonough, GA

The Milling Operator will maintain safe manufacturing of quality coatings through addition of chemicals and pigments from a formula ticket. This individual will possess a thorough understanding of the specific functions of all plumbing valves and pump controls in the milling and filling operations in order to route product through the plant properly.

SUPPLY SPECIALIST I

Imperial, MO

Maintain, update, and reconcile inventory transactions for finished goods, purchased finished goods, raw materials, packaging display and maintenance items. Working safely is part of our culture and is a condition of employment.

PRO SALES ASSOCIATE

Lake Mary, FL

As our PPS or Pro Paint Specialist with Behr, you'll be working in a Home Depot store as a sales specialist focusing on professional painting contractors and their unique needs. On your own and working with the Pro Desk staff, you'll meet and form relationships with local pros who rely on Behr for excellent products and exceptional customer service. You will build relationships with pros in the store who may be there for paint but are more likely there for something else. When an outside rep sends a contractor to you for paint, you will roll out the red carpet by collaborating with them to get exactly the right products for their needs, mix the paint, collect any sundry paint tools they need and get them in and out of the store quickly so they can get back to work. You will make our professional customers feel like they had a paint store experience.

TECHNICIAN C

Vista, CA

Does your ideal job entail troubleshooting parts and finding repair solutions? If so, we are looking for you! In the Technician role, you will apply your specific and related experiences to the testing of electronic, electro-mechanical, pneumatic and hydraulic equipment. The Technician regularly works from schematics, drawings, sketches and verbal instructions while utilizing basic test and measuring equipment.

MHO

Ontario, Canada

To perform the duties as required throughout the facility in order to receive, move, pick, pack, and ship material. These duties are to be carried out in a safe and efficient manner ensuring quality of the product and packaging, production is not negatively impacted, and that the pick rates are met.

BEAM OPERATOR

Middlefield, OH

The Electron Beam Operator will be responsible for the operation of our DC electron accelerator that is used for radiation processing. The Electron Beam plant sits adjacent to our main plant and is an integral operation within our value stream, providing enhanced properties to materials in our products.

FEATURED TRAINING PARTNERS

PATH TO PRO

Home Depot Path to Pro

With more than 400,000 construction jobs available today, the demand for skilled trades professionals has never been greater! The Home Depot is here to help veterans, military members, and military spouses build a career in the trades through the Path to Pro Program. Access FREE, on-demand training on job site safety, tools, construction materials, and much more, and apply for trade jobs to connect with hiring Home Depot Pros through the Path to Pro Network. Visit [PathtoPro.com](#) to learn more.

HEROES MAKE AMERICA

THE MANUFACTURING INSTITUTE

The Manufacturing Institute (Heroes MAKE America).

Heroes MAKE America is The Manufacturing Institute's initiative to build connections between the military community and the manufacturing and supply chain industries. Its signature program, a DoD approved SkillBridge, provides integrated certification and career-readiness training in partnership with local community colleges to prepare transitioning service members, veterans, National Guard members, reservists, and military spouses for rewarding careers in the manufacturing and supply chain industry. Heroes MAKE America offers in-person training at Ft. Riley, KS; Ft. Cavazos, TX; Ft. Liberty, NC; and Ft. Stewart, GA as well as three online and remote training options. The program is offered at no expense to participants. For more information, please visit their [website](#).

Workshops for Warriors

Start your career in advanced manufacturing with accelerated training at [Workshops for Warriors](#).

Workshops for Warriors ([wfw.org](#)) provides veterans and active duty transitioning service members with accelerated training, certifications, and job placement assistance in welding, CNC machining, CAD/CAM programming, 3-D printing and more. Since 2012, WFW's more than 1,100 graduates have earned over 12,200 nationally-recognized certifications and are working in every state in the nation. WFW students are provided opportunities for career training and to meet one-on-one with potential employers during their 16-week programs which are offered three times per year. Average starting salaries in advanced manufacturing careers for WFW graduates is \$60,000 per year. Scholarships and stipends are available for eligible students.
